TO [FAMILY RESEARCH COUNSEL](#)

I am OUTRAGED!!!!!! I sometime surf the newsgroups to see what is going on. One of the groups I like to watch is Pedophilia. Today they were flooded with posts from your agency. They were from your lawyer [REDACTED]. They pointed out that the FBI was cracking down on their activity. These post were fine. What followed is what outraged me. [REDACTED] then issued an apology for the post and sent some of the filthiest child porn I have ever seen there. Usually all I see is nudes of Japanese girls and nudes from nudist camps in this NG, but these were full sex. Children with children and adults with penetration. I am making a copy of this letter and posting it to every conservative source I can find to have you removed from the net.

Gee, what's next for your "republican" righteous agenda??? Are you going to examine and try to criminalize people who write and post stories about sex???

"Oh, no! You can't post that erotic story! It is just tame erotica, without pedo or incest, but one of my fellow christian conservative friends might read it. Or, WORST yet, MY innocent 10-year-old might come across it! MY very OWN child will be changed forever!!! OH, we musn't let that happen, so DEAR ME GOD!!!!"

I mean, come on. That's how the young ones come across sex. Some may see some frontal nudity while channel-surfing through the family's cable-tv hook-up. Is that not a likely situation?? How about a child passing through a neighborhood, on the way to school, and the same child sees some sexual act between two consenting adults from a house that he or her just happened to pass?? Is that unlikely, too??? Are you going to next OUTLAW every single house in America its cable tv system and OUTLAW every window on the houses of American suburbia? How are millions of consenting adults going to have entertainment???? How will YOU watch a house of a friend who is away on vacation without windows??? They specifically said to watch for burglars... Banning ANY smut could have major repercussions on YOUR own life, Ms. holier-than-thou [REDACTED] Esq.

AND... in the words of Oliver Hardy to Stan Laurel:

"This is another fine mess you gotten me (or us) into!"  
(Only it's your conservative pals saying it to YOU!)

Turning the whole world to nuns and priests will not work. You need to reserve a million (at least) to procreate the species of mankind. That is why sex exists.

b6  
b7C

And, if ya REALLY want to know the truth: THERE IS NO GOD. The whole planet is NOT controlled by ANY sentient being. The planet is in total chaos. Deal with it.

>:-P tthhbbbbb!!! Poo-poo on you, [REDACTED] Ha ha ha... :-D

But seriously, folks... [REDACTED] you are not even worthy of a flame response form. Now, just stop it, or else somebody will make you stop.

But, to be true, I DO pity your dog, you maggot-ridden fool.

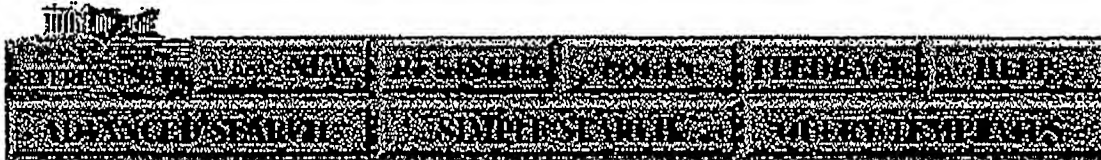

Leave the F.B.I. work to the true professionals...  
You are only making an annoyance, not being a help.

I mean, really, Sherlock. Get a life and a clue.

(For those who don't know who a crackerhead is, think of a package of crackers that comes with your soup in a restaurant. Now, imagine yourself peeling away the packaging and tossing one of the crackers away... NOTE: there should be two per package. Now, notice how light the cracker is. It's VERRRY light. Now, taste it. It almost has no taste whatsoever. Gee, if one had a brain with the likeness of this cracker, they would have a tasteless personality and agenda, their brain would be so light, they would be motivated for futile things... Gee, doesn't that describe one of the newest members of the internet? I mean, wow, that is an almost EXACT, uncanny discription of [REDACTED] Esq. Gee, wow, huh??)

[redacted] the newsgroups listed above have nothing to do with your philosophy. Please stay out of them. What you have done is crossposted irrelevant material many times which is a breach of the rules of the internet. This irrelevant material has arrived in newsgroups that have nothing to do with the issue you have brought up.

Don't you get it?? No one listens to you because the majority of the country feel you \*overprotect\* your views. Your philosophy is simple. Parents should know what's good for them. Unfortunately for you, reality is the opposite. Parents should know what's good for you.

Children \*are\* safe in today's society. Parents \*do not\* need you. Do you ever consider the reality that you \*overprotect\* children that are just not yours. Remember this, those rights you want parents to lose are your rights. You are taking away your own rights.

Since this poster known as [redacted] has broken the rules of ISP's, this is the dream \*\*\*I've\*\*\* been waiting for!! To have her \*never\* be allowed to access the internet again!!!

I received an A on my research paper in college concerning the CDA. I have shown proven facts that [redacted] is a religious marxist that wants to take away parents responsibilities, the responsibilities of individual citizens and the Freedom of Speech and the Press.

[redacted] may I happily wish you a fine farewell from the Internet!! You have finally cracked and broken the rules. That was my solution in my research paper. May everyone please complain to her ISP, her superior, and

to her organization that she has broken the rules and is therefore inadequate to protect the safety of children.

There's always blocking software for your brain, not for your computer! Remember, you will grow very old.

ass.

P.S.: Isn't it true, that you were spanked completely naked by your father 20 years ago and that also happened when you were 16 years of age?? Isn't it true you didn't like to go to the doctor's when you were young?? And you are still crying out those tears today!!???. Simply because no one listens to you. You are a crying little girl. That's what really bothers you, not the non-safety of children that doesn't exist.
